## Professional Summary

- I am a motivated and detail-oriented Software Developer with a strong foundation in Computer Science fundamentals and hands-on experience in scripting, database systems, and software development. Proven ability to design and develop high-performing, time-sensitive solutions through internships and academic projects. Passionate about solving complex business problems by leveraging innovative approaches and AI-powered technologies. Adept at collaborating across teams and enabling impactful results.

## Skills

- Programming Languages & Scripting:** Python, JavaScript, Java, C++, SQL
- Database Systems:** MySQL, MongoDB, Firebase
- Development & Design:** React.js, Next.js, Node.js, RESTful APIs, SpringBoot, Scalable Systems
- AI & Cloud Technologies:** AI-Powered Solutions, Google Cloud, CI/CD Pipelines
- Tools & Principles:** Git, GitHub, OOP, Design Patterns, Data Science Basics
- Soft Skills:** Problem-Solving, Critical Thinking, Collaboration, Quick Learner, Communication

## Work Experience

- Consultant (Web Developer)** – Scry AI Pvt. Ltd. 10/2024 – 01/2025
  - Designed and implemented web applications using **JavaScript** and **React.js**.
  - Participated in debugging, ensuring robust application performance.
  - Worked with cross-functional teams to improve system reliability and scalability.
- React Developer Intern** – UnORG Vendors Pvt. Ltd. 02/2023 – 04/2023
  - Developed an online shopping platform using **TypeScript** and **React.js**, improving performance by 30%.
  - Integrated **Node.js** for back-end enhancements, increasing system efficiency by 25%.
  - Leveraged SQL and API integration to streamline data communication between components.

## Education

- Madan Mohan Malaviya University of Technology, Gorakhpur 08/2020 – 08/2024  
Bachelor of Technology CGPA: 6.9/10

## Project Work

- Job Listing (03/2024):**
  - Created a job search application enabling users to search, post, and find 25% faster job listings.
  - Utilized Java and Spring Framework for backend development, and integrated MongoDB, enhancing data retrieval speed by 40% and supporting scalability for up to 50,000 listings.
- Chatty 007 (01/2024):**
  - Created a real-time chat application using **Next.js**, achieving a 30% reduction in message delivery latency.
- Name The Game (12/2023):**
  - Devised and deployed a community-driven platform using React.js and Vercel, allowing users to discover and discuss game names they can't recall, with 15% more daily logins.
  - Enhanced user engagement by 30% through interactive features for community interaction, efficient state management.

## Certificates

- Programming Foundations: Databases
- Introduction to Cloud Identity
- Machine learning Bootcamp for Beginners 2021
